Field notes for blind playtests

Cut out one prompt per test. Choose a question before the session and record what actually happens.

SETUP / 01

First object

Put the closed box and rules in front of a new player. Stay silent for three minutes.

RECORD

Write down the first component they touch and the instruction they needed at that moment.

SETUP / 02

Missing piece

Ask a tester to set up for two players using the component list alone.

RECORD

Circle the first count, colour or component name they have to guess.

SETUP / 03

Seat change

Move the rule reader to the opposite side of the table before setup.

RECORD

Record which labels, boards or piles they have to stand up to see.
